Note that:

- the programme and timing might change according to the learning needs
- we would like to start the activities on the arrival day before dinner at 18:00, so please plan your trip according to it (if possible)
- remember to bring whatever you want to share with the group

**PREPARATION TO THE SEMINAR**

What to do before coming?

1. Join the platform! Paul is going to send you an invitation: it takes few seconds to register and getting in. The platform is one of the outcomes of a Grundtvig Learning Partnership on the topic and you can find interesting documents, videos etc.
2. Think of a project, training course, workshop, activities on SDL/L2L you have been involved as a learner and/or as trainer/facilitator. If you have some concrete outcomes, you are welcome to share it with the group. You do not need to prepare a presentation
3. Bring with you one object that represents something important in your daily life. The details will be explained once we are together...just please do not share this information with the others!
